

# Underbridge Inspection Unit ABC 140 LS

## Self-propelled working unit

Max. horiz. outreach below construction	14,00 m	Total length	12,00 m
Width of platform (basic/telescopic)	1,40/1,30 m	Total width	2,55 m
Max. lowering depth	7,80 m	Transport height	4,00 m
Max. vertical overbridging	2,10 m	Diesel power unit Permissible up to max. wind speed of 12,5 m/s. Driving licence category: C <b>Equipment on platform</b> Power connection 220-380 V, 1 scaffold, videocontrolled platform	
Max. horizontal overbridging (noise barrier)	4,00 m		
Max. load on platform (incl. equipment)	600 kg		
Max. capacity on extended telescopic platform	300 kg		
Rotation area of platform	180 °		
Permissible longitudinal gradient	7 % (3,5°)		
Space required on bridge	2,50 m		
Total weight	18.000 kg
